Biofarm's Flagship Habitat Bank

Registered BNG units for
developments across Bristol
and the West of England

Helping your scheme move
forward while nature moves with it.

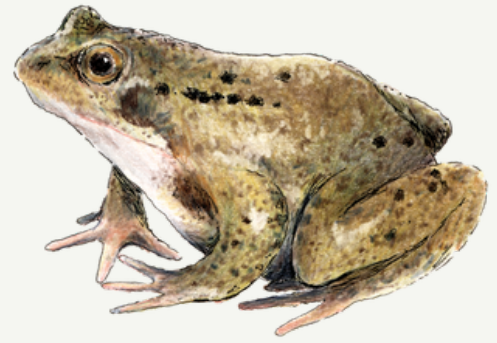

Sleight Farm is our flagship habitat bank,
demonstrating how large-scale BNG
delivery supports both development and
long-term land stewardship.

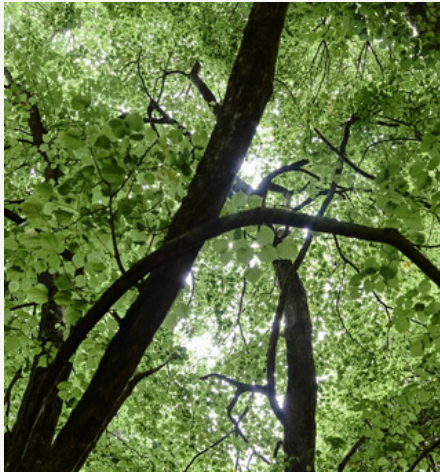

Located within Bath & North East
Somerset, the site provides a strategic
supply of units aligned with local
planning policy and regional demand.

Habitats are being created and
enhanced using proven, low-intensity
farming practices to deliver measurable
biodiversity gains – supporting wildlife,
improving soil health and strengthening
ecological networks across the region.

Why developers choose Biofarm

National by nature, local by design

We deliver end-to-end BNG, from land sourcing and habitat creation to unit delivery, long-term ecological management, and ongoing advisory to guide you through BNG requirements in the planning process.

We make BNG straightforward

Clear, compliant solutions without unnecessary complexity.

We deliver at scale

High-quality habitats aligned with local planning priorities.

We stay for the long-term

33 years of management, ensuring lasting biodiversity gains.

"We purchased habitat units from Biofarm and appreciated how they worked with us to shape a solution that fit our specific project. It made the process feel more collaborative and easier to navigate."
